

My Personal Hair Care Routine for Hair fall and healthy Hair Growth

Main apna real routine share kar rahi hoon jisse mujhe hair fall control karne aur healthy growth maintain karne me help mili.

☞ Agar aapko bhi naturally strong & shiny hair chahiye to mujhe follow zarur karein – main daily apni insta stories & reels me tested aur real tips share karti hoon.

🔍 Root Causes of Hair Fall (Jo mujhe samajh aaye)

Hair fall ka reason har kisi ka alag hota hai. Mere case me mujhe in cheezon ka pata chala:

1. Nutrient Deficiency

- Iron, Vitamin D, B12, Zinc aur Protein ki kami se roots weak ho jati hain.
- Solution → Blood test karwaya aur diet me spinach, nuts, paneer, yogurt aur lentils add kiya.

2. Hormonal Imbalance – PCOS, thyroid, post-pregnancy changes.

- Mujhe kuch PCOS symptoms bhi the jo doctor se baat karne par confirm huye.
- Solution → Doctor consultation + diet me healthy changes kiye jisse mujhe kaafi benefit mila.

3. Stress & Sleep Issues

- Jab stress jyada hota hai to cortisol hormone hair growth cycle disturb karta hai.
- Solution → Yoga, meditation aur 7–8 hrs sound sleep.

4. Scalp Health Problems

- Dandruff, excess oil ya fungal infection se roots suffocate karte hain.

Solution- Week me ek baar khatta dahi ya chhach ko scalp me apply karke wash kre (natural anti-fungal) Agar dandruff zyada serious ho to anti-dandruff shampoo (2% ketoconazole) use kare.

- glycolic acid scalp serum bhi apply kar sakte ho buildup remove karne ke liye.

5. Hair Practices

- Daily heat styling, chemical dyes, tight hairstyles se breakage jyada hota hai.

- Solution → Loose protective hairstyles + minimal heat + natural products.

My Daily Hair Care Routine

- Morning & Night – Gentle brushing to remove tangles.
- Cover hair before going out (sun + pollution protection).
- Loose hairstyles (no tight pulls).
- 5 min scalp massage daily.
- Rosemary water spray (started 2x/week, gradually daily).
- Hair growth serum at night (jab hairfall jyada hota hai).
- Oil/serum on mid-lengths & ends.
- Silk pillow cover + loose braid before sleeping.

Twice a Week

- Oiling – homemade mustard oil with some herbs + few drops rosemary essential oil.
- Fenugreek seed water OR onion juice on scalp before Hair wash.
- Mild Shampoo + Conditioner.
- Drying with microfiber towel/old cotton T-shirt.
- Heat protectant before any styling. (I rarely use heat styling 2-4 times a year)

Once a Week

- Hair Mask (mera fav):
- Banana + honey + olive oil OR
- Curd + honey + almond oil OR
- Aloe vera gel + coconut oil.

Twice a Month

- Clarifying shampoo OR Apple Cider Vinegar rinse to remove buildup. Or you can also use Glycolic Acid Serum.

👁️ Healthy Diet for Hair

- Spinach & leafy veggies (Iron).
- Yogurt, paneer, ghee, milk (Protein + Healthy fat).
- Nuts & seeds – Almonds, walnuts, chia, flax, pumpkin, sunflower.
- Rajma, dal, soybean (Protein).
- Sweet potatoes, carrots (Vitamin A).
- Seasonal fruits (kivi, papaya, guava, oranges, banana).
- Hydration – 2.5–3 litres water daily.

🚫 I completely Avoid – junk, fried & processed foods.

❓ Mistakes I Stopped Making

- Combing hair by pulling it out.
- Keeping the scalp dirty
- Hair wash with hot water.
- Tight ponytails/buns.
- Using straightener/curling rod without heat protectant.
- Sleeping with open hair on cotton pillow.
- Ignoring dandruff & scalp buildup.

Finally mere experience Mujhe samajh aaya hai ki hair fall ya healthy hair growth ka asli solution sirf ek shampoo ya serum nahi hai...

asli magic hai root cause samajhna + healthy diet + scalp care routine & lot of patience.
