

KUSUMA- THIS WEEK'S TASK

Tutor Landing Page Enhancement

This week, I Will work on redesigning the Tutor Landing Page to improve clarity, navigation, and overall user experience. The focus was on restructuring the layout, improving visual hierarchy, and presenting tutor features in a more intuitive and guided manner.

The redesign aims to help tutors quickly understand the platform's purpose, available functionalities, and next actions without feeling overwhelmed. Changes are limited to frontend UI/UX enhancements only, with no impact on backend logic or the existing database.
